

## An Informative Two-day Seminar:

# Blueprint for a Safety and Health Management System

## 1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance.

The MIOSHA Training Institute introduced a new certification program, effective October 1, 2007. This course is an MTI Level 1 course. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise.

Courses will be offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

The attendees will learn that a direct relationship exists between effective management and lower workplace injury and illness rates. This class uses continuous improvement tools and methodology to effect increased worker protection, lower costs, enhanced productivity, and improved employee morale. Attendees will learn that a high level of employee involvement leads to continuous improvement of the safety and health management system. When effort and accountability are focused proactively, costly reactive activities can be eliminated.

### Agenda

*We offer a flexible program agenda to emphasize the health and safety topics you want most.*

- ▶ System Dynamics

- ▶ Hazard Identification and Control
- ▶ Incident/Accident Investigation
  - ▶ A Problem-solving Approach
- ▶ Plan Evaluation

Required Class for  
General Industry  
Level One  
MTI Certification

# Facilitator

Barry brought more than 20 years of safety related experience to the CET Division when he joined us in 2004. Barry started out in the United States Air Force. As an Air Force Fire Protection Specialist he gained experience in almost every position in the fire department while doing crash/rescue and structural firefighting duties. Barry then transferred to the Air Force Safety Program and was the non-commissioned officer in charge of the 410th Bomb Wing Ground Safety office at K.I. Sawyer AFB. (He also served a joint service tour with the U.S. Army as the Chief of Safety for U.S. Forces in the country of Honduras.) In all of these positions, Barry had extensive safety training responsibilities.

After leaving the Air Force, Barry joined the Department of Corrections as a State Certified Fire Inspector. He came to MIOSHA in 1997 as a General Industry Enforcement Officer for the Port Huron area and joined the CET team in 2004. Barry's degrees are in both safety and fire science technology and he is responsible for the Upper Peninsula region.

Presenters: Barry W. Simmonds, Occupational Safety Consultant  
and Cindy Zastrow, Industrial Hygienist; MIOSHA-CET Division

**Barry W. Simmonds**  
*Occupational Safety Consultant*  
*MIOSHA, CET Division*
